

HK Recreation Depart After School Child Care Program

The Haddam-Killingworth Child Care Program provides care for children ages 4.5 to 12 years, grades K through 6. Fourth, fifth and sixth graders will be bused to the After School Program site of your choice.

At least two adults will be directly responsible for care of the children, with an overall staff/child ratio of 1:10.

Support staff will be available to assist the adults with program activities, and the supervision of children. Overall ratios **will not** exceed 10:1. Group size will not exceed 20. Each staff member will be responsible for: 1) guiding and preparing appropriate experiences and materials for the child's use and 2) communicating to the parents/guardians the child's accomplishments, problems, or needs.

At most times, children will move in small groups throughout the program areas. Adults will arrange interest/activity areas and children will be allowed to choose among the activities and/or materials which interest them. Adult/student aides will follow the flow of children through various activities, stationing themselves where necessary and offer suggestions, provide feedback, answer questions, lend support, monitor stress/need to change activities, monitor proper behavior, and maintain safety.

At various times during the program day, adults/student aides may conduct planned, small-group projects, depending on subject and interest.

Children will be observable when walking to toileting facilities and will be escorted to and from the building when outside.

The outdoor play facilities at the program will be child and age appropriate.

There will be at least 2 persons on the premises at all times to care for the children.

Children will never be left unattended.

Educational Program Plan

Children at the HK Rec. Department After School Program will follow a flexible daily schedule that meets the individual needs of the diverse population of children and families served by our program, including those with cultural, language and developmental differences.

The daily schedule shall include indoor and outdoor physical activities, which will allow for fine and gross motor development. The daily schedule will include opportunity for problem-solving experiences that help to formulate language development and sensory discrimination. Children will have the opportunity to express their own ideas and feeling through creative experiences in all parts of the program, including: Arts and media, Dramatic play, Music, Language, Motor activity, Language learning experiences, Experiences that promote self-reliance, Health education practices, Child initiated and staff initiated experiences, Exploration and discovery, Varied choices in materials and equipment, Individual and small group active, Active and quiet play, Rest or quiet activity, Nutritious snacks, Toileting and clean up.

Accepted and Prohibited Disciplinary Measures

Discipline is a positive learning process in the growth and development of children as individuals and as they participate in group activities. Discipline sets limits and guidelines for that growth process. Developmentally and individually appropriate guidance demonstrates respect for the child and for the group. The child feels safe and secure, knowing that adults respect him/ her, care enough to set reasonable boundaries on their behavior, will communicate those limits to him/her, and enforce them when necessary. **It is always important to remember that it is the behavior that is to be corrected, not the child's personality.** A child who may be overly aggressive or is repeatedly destructive of other children's property may be redirected and asked to make an activity choice in another area if talking things through has not resulted in better self-control.

The child care staff may decide that a Discipline Report may be necessary, which will be given to the parents/guardians and the Director of Recreation to read and sign. Three discipline reports will result in a one-day suspension from the program; the fourth discipline report will result in a two-day suspension. If unacceptable behaviors continue expulsion from the program may be necessary. Discipline Reports will be used to provide clear communication with parents and to, hopefully, correct inappropriate behavioral problems and facilitate enrollment in the program.

The goals of positive discipline are:

***Self-direction**

***Self-control**

***Safe, happy group living**

***Positive self-image**

***Respect for materials and *Respect for others equipment**

The staff will set clear limits so that children have a clear understanding of what is expected of them as well as an awareness of which types of behavior are unacceptable.

When behavior problems do arise, either individually or in the group, they will be handled promptly by the adult present keeping in mind that: 1) no two children are alike and 2) children develop on their own timetable, in their own unique way, reacting differently to situations and methods of discipline. Individual behavioral difficulties will be handled on an individual basis. Staff will continuously supervise children during disciplinary actions. Staff shall not, under any circumstances, be abusive, neglectful, or use corporal, humiliating or frightening punishment. No child shall be physically restrained unless it is necessary to protect the safety and health of the child or another child or staff member.

Some examples of unacceptable behavior are:

- Physical handling of children by another child (shoving, hitting, biting, scratching, kicking, spitting, inappropriate touching or any hurtful action).

- Threatening forms of violence towards another child or staff member.

- Bullying (Bullying is defined as any overt acts by a student or group of students directed against another student with the intent to ridicule, humiliate or intimidate the other students. These acts are repeated against the same student over time.)

- Misuse of materials, objects or equipment (i.e. throwing toys).

- Toileting out-of-doors.

- Children involved in an improper activity and as a result to that activity there is damage to school or Recreation Department property will be held responsible. **We reserve the right to divide the expense with those involved.**

- Unacceptable language (foul language and/or swearing).

- Any rule that is stated in the Reg. School Dist. 17 Elementary School Handbook

If a Parent Appears to be Under the Influence of Alcohol

A staff member **cannot** prevent a parent from taking his/her child, even if you suspect he/she is under the influence of alcohol. Any staff member who suspects a parent has been drinking should alert the Site Director (or adult in charge) immediately. The person in charge should then...

1. Suggest to the parent that he/she call someone else to pick up the child.

A call will be placed to the parent's/guardian's home, places of employment, and cell phone. Repeated late pick-ups may result in expulsion from the program.

If the parents/guardians cannot be reached and do not call or arrive to pick up the child by **6:15 PM**, then the designated emergency contact person's phone numbers will be called and they will be requested to pick up the child. After one hour, if no one can pick up the child and the parents /guardians still cannot be reached, the State Police will be called. At that time, the child may be released to the police.

HK Recreation Department After School Program Administration of Medications Policy

It is not recommended that medication be administered by the Haddam-Killingworth Recreation Department staff. It is preferred that medication to be given at home or administered by the School Nurse during the school day. 1. Medication will only be administered by a staff member certified in the administration of medication.
2. Only oral, topical or inhalation medication and injections by a regulated system (such as the Epi-Pen) will be dispensed at the After School Program.
3. Under no circumstance will the first dosage or application of any medication be given at the After School Program.
4. Medications shall be double locked and stored in a locked cabinet or in a locked box in a refrigerator in keeping with the label directions, and inaccessible to children.
5. All medications shall be stored in the original child-resistant safety container labeled with;
 - (a) the child's name;
 - (b) the name of the medication;

7. Any errors in the administration of medication by any person shall be reported to the Director and parents immediately. Errors will also be documented in writing in a designated book to record incidents.
8. Medication must be handed to the Site Director (by the parent). Medication must not be in the child's possession (lunch box, pocket, back pack). If medication is discovered in the child's possession, it shall be destroyed. This is for the safety of all the children at the After School Program.
9. The approved medication administration record will become part of the child's health record when the course of the medication has ended.
10. The After School Program should be notified of any child who is given medication during the day, even if the parent or school nurse administers the medication. This will help us in recognizing any side effects or symptoms.

Please note that notifying school personnel is not sufficient. To obtain a credit for an absence due to illness, a parent or guardian must contact the Director of Child Care by email or by calling the Recreation Department. Absences (unless otherwise specified), must be paid for.

Insufficient Funds

If a check is returned for insufficient funds, the parent or guardian will be notified immediately. Re-payment will be made by cash or money order and include a returned check fee of \$20.00. If re-payment is not made within seven days, the child's enrollment in the After School Program may be jeopardized.

Withdrawal/Expulsion of Children

Parents or guardians must provide the center with 2 weeks written notice prior to withdrawing their child from the center. All tuition owed must be paid in full. Likewise, if possible, the program will provide the same courtesy if care for a child must be terminated for any reason. The program will work with all children and families to avoid a child's expulsion.

Special Needs

We accommodate children with special needs; however, there are occasions when children do not make a comfortable adjustment to a child care environment. When these problems arise, it is important for staff and families to acknowledge the problem and work together cooperatively to find the solution which best suits the needs of the child, the family, and the Child Care Program.

If a child is having significant adjustment difficulties, the following protocol will be followed:

1. The child's parent or staff member should notify the Director of Child Care and a conference will be scheduled immediately between the Director of Child Care, the parents, health care provider (if needed) and an applicable staff member.
2. Careful observation of the child's behavior and progress may be charted by the parents and staff for the following month.
3. A follow-up meeting will be scheduled between the Director of Child Care, the parents, health care provider (if needed) and an applicable staff member to discuss and implement an individual care plan which is suitable for the parent and the child. Such plan shall include appropriate care of the child in the event of a medical, or other, emergency, and shall be signed by the parents and the Director of Child Care.
4. This individual care plan will be implemented by the Director of Child Care, and results of it's effectiveness will be monitored on a bi-monthly basis until a successful resolution has been achieved.
5. If it should become necessary to remove a child from the Child Care Program, the Director of Child Care and staff members will work hand-in-hand with the parents in the coordination of alternative Child Care placement, referral to consultants, or other professionals and/or referral to proper agencies.

MEDICAL FORM

A medical form is required by the State Department of Health to be on file for each child enrolled in our program. You may bring a copy from your physician or ask the nurse of the school your child is attending for a copy of your child's health form.

MOVIES

Occasionally, we show movies on a rainy day or as a special event. Most of the movies are rated "G" but, occasionally, we will see a "PG" movie, previously approved by the Director of Child Care. If a parent would like to restrict a child's viewing of movies further, please notify the Site Director.
